

Cochrane Master Builders

Universal Website Copywriting Template Plan

Purpose Of This Copywriting Template

This document is the master copywriting system for the Cochrane Master Builders website ecosystem.

It is designed to sit directly on top of the universal wireframe system and give every section of every service website a clear copy strategy, message structure, section purpose, emotional goal, customer psychology angle, and reusable copy formula.

The goal is not to create generic contractor copy.

The goal is to create a repeatable, high-converting, emotionally grounded, locally specific copywriting framework that can support all service websites under the Cochrane Master Builders umbrella while still allowing each service domain to feel custom.

Every site should feel:

- Local
- Family-owned
- Trustworthy
- Clear
- Premium but humble
- Long-term
- Neighbour-oriented
- Built for Cochrane families
- Practical enough to convert
- Emotional enough to be remembered

The master brand idea should guide every page:

****Strong Foundations For Those Who Come After Us.****

This line is not just a slogan. It is the narrative spine of the entire website ecosystem.

Core Copywriting Principle

Every piece of copy should answer one customer question:

****Can I trust this company with something my family, property, money, or future depends on?****

That is the true conversion problem.

The customer is not only looking for roofing, siding, tile, concrete, decks, framing, basement suites, landscaping, or renovations.

They are looking for certainty.

They want to know:

- Will this company show up?
- Will they explain the cost?
- Will they respect my home?
- Will the work last?
- Will they leave me with hidden problems?
- Will my family be safer after this?
- Is this a contractor I can call again?
- Will I regret hiring them?

The copy must reduce that anxiety section by section.

Master Narrative Backbone

Every page should quietly follow this story arc:

1. Problem

The customer has a project, but they also have uncertainty.

They may know what they want, but they do not know who to trust, what it should cost, how long it should take, what can go wrong, or whether the work will age well.

2. Empathy

The copy must acknowledge that construction can feel stressful.

A homeowner is opening up their home, budget, schedule, and trust to a contractor. That is a serious decision.

3. Insight

The key insight is that good construction is not only about the finished photo.

It is about what happens years later.

The best work protects the family, holds value, prevents future problems, and becomes part of the home's long-term foundation.

4. Transformation

The customer moves from uncertainty to clarity.

They go from worrying about the project to understanding the process, pricing, scope, and next step.

They feel confident because the company is local, family-owned, organized, and built around a long-term standard.

5. Proof

The copy should support claims with:

- Clear process
- Service details
- Pricing ranges
- Local area references
- Before/after examples
- FAQs
- Photos
- Project explanations
- Brand values
- Centralized inquiry system
- Family-owned accountability

Master Voice And Tone

The voice should sound like a highly competent local builder who is calm, honest, experienced, and protective.

The copy should not sound like a generic SEO contractor website.

It should not feel like a hard sell.

It should feel like a steady local expert walking the homeowner through the decision.

Voice Attributes

- Clear
- Strong
- Grounded
- Humble
- Practical
- Emotionally intelligent
- Family-first
- Neighbourly
- Premium but not arrogant
- Confident but not loud

Tone By Section

Hero: clear, strong, trust-building.

Pricing: honest, practical, explanatory.

Process: calming, organized, reassuring.

Services: specific, useful, easy to scan.

Legacy block: emotional, sincere, humble.

Areas served: local, confident, SEO-aware.

FAQ: direct, helpful, no fluff.

Contact form: reassuring, simple, low-pressure.

Global Copy Rules

Always Use

- Family-owned
- Local Cochrane team
- Clear pricing guidance
- Built for long-term value

- Neighbour-focused service
- Strong workmanship
- Safe, durable, practical
- Protect your home
- Built for the people who come after us
- Request a clear estimate

Avoid Overusing

- Best
- Cheapest
- Luxury on every page
- World-class in customer-facing copy
- Guaranteed unless legally true
- Overhyped claims
- Vague words like quality, excellence, solutions without proof

Replace Weak Copy With Stronger Copy

Weak: "We offer professional renovation services."

Better: "We help Cochrane families renovate with clear pricing, careful planning, and workmanship built to hold up years after the dust settles."

Weak: "Contact us today."

Better: "Tell us what you are planning. We will help you understand the scope, rough range, and best next step."

Weak: "High-quality construction."

Better: "Work built carefully enough that we would be proud if our own grandchildren inherited it."

Universal Copy Variables

Use these variables to adapt copy across all 115 websites.

- **[Brand Name]** = Cochrane Roofing Masters, Cochrane Tile Masters, etc.
- **[Service]** = roofing, tile installation, basement suite construction, etc.
- **[Service Category]** = exterior, interior, structural, mechanical, outdoor, commercial, etc.
- **[Primary Customer]** = homeowner, family, acreage owner, landlord, business owner, etc.

- **[Main Outcome]** = safer home, better value, more space, stronger exterior, etc.
- **[Pain Point]** = leaks, old materials, unclear pricing, bad past contractor, wasted space, etc.
- **[Community]** = Cochrane, Bearspaw, Springbank, Bragg Creek, Canmore, etc.
- **[Price Range]** = service-specific range.
- **[CTA]** = Request A Clear Estimate.

Core Homepage Copy Template

The homepage should follow this sequence:

Trust Bar → Hero → Trust Signals → Services → Pricing → Process → Legacy → Proof → Areas → FAQ → Final CTA → Footer

Each section has a specific job.

The copy should move the visitor from:

“I need this service”

to

“I trust this company enough to ask for an estimate.”

Page 1: Homepage Copywriting Template

Section 1: Trust Bar

Section Purpose

The trust bar should instantly communicate that the visitor found a local, family-owned, Cochrane-focused service.

It should be short, calm, and credible.

Emotional Goal

Make the visitor feel:

“This is local. This is not a random lead-gen site.”

Copy Formula

****Family-owned [Service] for Cochrane, surrounding acreage communities, and Calgary west homeowners.****

Template Options

Option 1:

****Family-owned [service] for Cochrane homes, acreages, and surrounding communities.****

Option 2:

****Part of the Cochrane Master Builders network — built for families, neighbours, and long-term value.****

Option 3:

****Serving Cochrane, Bearspaw, Springbank, Bragg Creek, Canmore, and Calgary west communities.****

Service-Specific Examples

Roofing:

****Family-owned roofing for Cochrane homes, acreages, and surrounding communities.****

Basement Suites:

****Legal basement suite planning and construction for Cochrane families, landlords, and multi-generational homes.****

Concrete:

****Concrete driveways, slabs, patios, and foundations built for Alberta weather and long-term value.****

UX Copy Notes

Keep the line under 18 words if possible.

Do not include a long paragraph here.

This section should support trust, not compete with the hero.

Section 2: Hero

Section Purpose

The hero must immediately tell the visitor:

- What service this site provides.
- Where it is provided.
- Why this company is different.
- What action to take next.

Emotional Goal

Create confidence within five seconds.

The visitor should feel:

“This is exactly what I searched for, and they sound trustworthy.”

Hero Copy Structure

1. Eyebrow
2. Headline
3. Subheadline
4. Primary CTA
5. Secondary CTA
6. Trust microcopy
7. Optional floating proof cards

Eyebrow Formula

****Family-Owned [Service] In Cochrane****

Alternative:

****Cochrane [Service] Built For Long-Term Value****

Alternative:

****Part Of The Cochrane Master Builders Network****

Headline Formula 1

****[Service] Built For The Families Who Depend On It.****

Headline Formula 2

****[Service] That Protects Your Home Today And Adds Value For Years.****

Headline Formula 3

****Cochrane [Service] Done With Care, Clarity, And Long-Term Workmanship.****

Headline Formula 4

****Built Properly Today. Trusted By The People Who Come After Us.****

Hero Subheadline Formula

****Get clear pricing guidance, careful workmanship, and a local family-owned team that treats your [home/property/project] like it matters beyond today.****

Full Hero Template

eyebrow:

****Family-Owned [Service] In Cochrane****

Headline:

****[Service] Built For The Families Who Depend On It.****

Subheadline:

****Get clear pricing guidance, careful workmanship, and long-term value from a local Cochrane team that treats your home like it matters beyond today.****

Primary CTA:

****Request A Clear Estimate****

Secondary CTA:

****View Services & Pricing****

Trust microcopy:

****Local. Family-owned. Built for long-term value.****

Hero CTA Options

Primary CTA options:

- Request A Clear Estimate
- Start Your Project
- Get Pricing Guidance
- Tell Us About Your Project

Secondary CTA options:

- View Services & Pricing
- See How The Process Works
- Explore Service Areas
- View Recent Projects

Hero Floating Card Ideas

Card 1:

****Clear Pricing Ranges****

Planning guidance before you commit.

Card 2:

****Local Cochrane Service****

Built by neighbours, for neighbours.

Card 3:

****Long-Term Workmanship****

Work we would be proud for our own family to inherit.

Section 3: Trust Signal Strip

Section Purpose

Reduce doubt quickly after the hero.

This section should answer the silent objection:

“Why should I keep reading?”

Emotional Goal

Make the visitor feel safer.

Copy Structure

Use 4–5 short trust cards.

Each card includes:

- Short title
- One sentence

Universal Trust Cards

Family-Owned

****A local family standard behind every project.****

Clear Pricing Guidance

****We explain realistic ranges before you waste time guessing.****

Built For Long-Term Value

****We care about how the work performs years from now, not only how it looks on day one.****

Cochrane And Area

****Serving Cochrane, surrounding acreages, Calgary west, and nearby mountain communities.****

One Builder Network

****Specialized service websites, one shared Cochrane Master Builders standard.****

Service-Specific Trust Card Examples

Roofing:

****Weather-Ready Materials****

Roofing systems selected for Alberta hail, snow, wind, and freeze-thaw cycles.

Basement Suites:

****Code-Aware Planning****

We help you think through egress, fire separation, layout, comfort, and long-term use.

Decks:

****Outdoor Family Spaces****

Designed for gatherings, seasons, safety, and years of use.

Section 4: Service Overview

Section Purpose

Show the full range of what the specific website offers.

This section should also support SEO by using real service keywords.

Emotional Goal

Make the visitor feel:

“They do exactly what I need.”

Copy Structure

Headline:

****[Service] Services Built Around Your Home, Budget, And Long-Term Plans.****

Intro paragraph:

****Every project is different, but the goal stays the same: clear scope, honest guidance, careful work, and a finished result your family can trust for years.****

Service card format:

- Service title
- One-sentence outcome
- Typical pricing range
- Learn more CTA

Service Card Copy Formula

****[Sub-Service Name]****

[One sentence describing what it does for the customer].

Typical range: [Price Range].

CTA:

****Learn More****

Example: Roofing Site

****Roof Replacement****

Replace worn or damaged roofing with a durable system designed for long-term protection.

Typical range: \$10,000–\$20,000+ depending on size, pitch, materials, and roof condition.

****Roof Repairs****

Fix leaks, flashing issues, missing shingles, storm damage, and localized failures before they spread.

Typical range: \$350–\$2,500+ depending on access and repair scope.

****Roof Inspections****

Understand your roof's condition before buying, selling, renovating, or heading into winter.

Typical range: \$300–\$600.

Example: Bathroom Site

****Full Bathroom Renovations****

Rebuild the room for better comfort, storage, water protection, and long-term home value.

Typical range: \$20,000–\$50,000+ depending on finish level and layout changes.

****Walk-In Showers****

Create a cleaner, safer, more functional shower experience with proper waterproofing and drainage.

Typical range: \$8,000–\$20,000+.

****Heated Floors****

Add comfort and a premium feel while improving the daily experience of the room.

Typical range: \$10–\$15 per sq ft plus flooring.

Section 5: Pricing Transparency

Section Purpose

Make pricing feel less scary.

The copy should position pricing ranges as planning guidance, not guaranteed quotes.

Emotional Goal

The visitor should feel:

“At least now I know what ballpark I might be in.”

Headline Options

Option 1:

****Straightforward Pricing Guidance Before You Call.****

Option 2:

****Know The Rough Range Before You Start The Conversation.****

Option 3:

****Premium Work Should Still Come With Clear Expectations.****

Intro Copy Template

****No two [service] projects are exactly the same. Size, access, materials, existing conditions, permits, and finish level can all change the final price. But you should still have a clear starting point before you reach out. These ranges are here to help you plan with more confidence.****

Pricing Card Structure

Card 1:

****Small / Simple Projects****

Best for repairs, upgrades, or focused work.

Typical range: [Price Range]

Card 2:

****Standard Projects****

Best for most full-service residential projects.

Typical range: [Price Range]

Card 3:

****Premium / Complex Projects****

Best for larger scopes, custom finishes, structural work, or high-end materials.

Typical range: [Price Range]

What Affects Price Copy

****What can change the final price?****

- Size and layout
- Site access
- Existing condition
- Material selection
- Permit requirements
- Structural complexity
- Timeline and season
- Disposal and cleanup
- Licensed trade requirements

Pricing Disclaimer Template

****These ranges are planning estimates only. Final pricing depends on the site, scope, materials, access, existing conditions, code requirements, and project timeline. The best next step is to send photos, describe the project, and request a clear estimate.****

CTA

****Request A Project-Specific Estimate****

Section 6: Process

Section Purpose

Reduce fear by showing the customer the path.

A clear process is one of the strongest conversion tools for contracting websites.

Emotional Goal

The visitor should feel:

“They have done this before. I know what happens next.”

Headline Options

Option 1:

****A Clear Process From First Message To Final Walkthrough.****

Option 2:

****Built With A Process That Protects Your Time, Budget, And Home.****

Option 3:

****No Guesswork. Just Clear Steps.****

Intro Copy Template

****Construction can feel overwhelming when the next step is unclear. Our process is designed to keep the project organized, explain decisions early, and help you understand what is happening before work begins.****

Universal Process Copy

Step 1: Tell Us About The Project

****Send the basics: what you need, where the project is, your rough timeline, and any photos or plans you already have.****

Step 2: Scope Review

****We review the details, ask the right questions, and determine whether a site visit, photos, or additional measurements are needed.****

Step 3: Clear Estimate And Options

****You receive practical guidance on scope, pricing, materials, timeline, and the best way to approach the work.****

Step 4: Scheduling And Preparation

****Once approved, we confirm timing, access, preparation needs, and what to expect before work starts.****

Step 5: Build, Repair, Or Install

****The work is completed with respect for your property, clear communication, and attention to the details that matter long-term.****

Step 6: Walkthrough And Closeout

****We review the finished work, answer questions, and make sure you understand any maintenance or next steps.****

Step 7: Long-Term Support

****The relationship should not end the moment the tools are packed up. We want to be the team you call again when your home needs us.****

Section 7: Family Legacy Block

Section Purpose

This is the emotional core of the brand.

It should explain the long-term, family-owned, generational mindset.

Emotional Goal

The visitor should feel:

“These people care about the work differently.”

Headline Options

Option 1:

****Built Like It Still Matters 50 Years From Now.****

Option 2:

****Strong Foundations For Those Who Come After Us.****

Option 3:

****We Build With The Next Generation In Mind.****

Core Copy Template

****This is not disposable work. When we build, repair, or renovate, we think about the people who will live with the result years from now. The child growing up in the room. The grandparent moving into the suite. The future buyer trusting what was done behind the walls. The neighbour driving past the finished project.****

****Our standard is simple: would we be proud if our own family inherited this work?****

****That is what we mean by strong foundations for those who come after us.****

Shorter Version

****We are family-owned, and that changes how we think. We do not want work that only looks good on day one. We want work that protects, supports, and serves the people who come after us.****

CTA

****Build It Properly From The Start****

Section 8: Project Proof / Gallery

Section Purpose

Show real-world credibility.

If project photos are not available yet, this section can still be structured for future use.

Emotional Goal

The visitor should feel:

“They can show me what good work looks like.”

Headline Options

Option 1:

****Proof You Can See. Work You Can Live With.****

Option 2:

****Recent Projects, Practical Details, And Real Results.****

Option 3:

****Built With Care. Finished With Purpose.****

Intro Copy Template

****A finished project should tell a clear story: what problem was solved, what changed, and why the final result matters for the people using the space. Browse recent examples of [service] work across Cochrane and nearby communities.****

Project Card Copy Format

Project title:

****[Service] In [Community]****

Project description:

****We helped this homeowner [solve problem] by [scope summary], creating [specific outcome].****

Details:

- Location: [Community]
- Service: [Service]
- Scope: [Short Scope]
- Outcome: [Result]

CTA:

****View Project****

Section 9: Areas We Serve

Section Purpose

Create local SEO strength and reassure the customer that the company serves their area.

Emotional Goal

The visitor should feel:

“They know my area.”

Headline Options

Option 1:

****Serving Cochrane And The Communities Around It.****

Option 2:

****Local [Service] Across Cochrane, Acreage Communities, And Calgary West.****

Option 3:

****Built For Cochrane Homes, Acreages, And Neighbourhoods.****

Intro Copy Template

****We serve Cochrane and the surrounding communities with [service] built for local homes, weather, property types, and long-term value. Whether you are in town, on an acreage, near the Bow Valley corridor, or in one of Calgary’s west-side communities, we can help you understand the right next step for your project.****

Community Cluster Copy

Cochrane Core

****For homeowners in Cochrane neighbourhoods looking for practical, long-lasting property improvements close to home.****

Luxury Acreage Communities

****For acreage and estate-style properties where materials, access, curb appeal, and long-term value matter.****

Calgary West And Southwest

****For established homes and premium communities where quality work protects resale value and daily comfort.****

Bow Valley Corridor

****For mountain and corridor properties where weather, durability, and seasonal planning matter.****

Ghost Lake / Waiparous Corridor

****For lake, cabin, acreage, and recreational properties that need practical work built for changing seasons.****

CTA

****Check If We Serve Your Area****

Section 10: FAQ

Section Purpose

Reduce objections, support SEO, and answer the practical questions customers are already asking.

Emotional Goal

The visitor should feel:

“They are not hiding the details.”

Headline Options

Option 1:

****Questions Homeowners Ask Before Starting A [Service] Project.****

Option 2:

****Before You Book, Here's What To Know.****

Option 3:

****Clear Answers Before You Commit.****

Universal FAQ Templates

How much does [service] cost in Cochrane?

****Most [service] projects range from [range] depending on size, materials, access, existing conditions, and project complexity. The best way to get a useful number is to send photos, describe the scope, and request a clear estimate.****

How long does a [service] project take?

****Smaller projects may take [timeline], while larger or more complex projects can take [timeline]. Timing depends on materials, weather, permitting, site access, and scheduling.****

Do I need a permit?

****Some projects require permits, especially if they involve structural changes, plumbing, electrical, basement suites, additions, or major exterior work. We can help identify what may be required before work begins.****

Do you serve my area?

****We serve Cochrane and many surrounding communities, including Bearspaw, Springbank, Bragg Creek, Redwood Meadows, Calgary west communities, Canmore, Ghost Lake, and nearby areas.****

Can you give an estimate from photos?

****Photos can often help us provide an early planning range. For final pricing, many projects require measurements, site review, material selection, and scope confirmation.****

Why should I not choose the cheapest quote?

****The cheapest quote can become expensive if the work fails, needs to be redone, or creates hidden problems. We focus on clear scope, proper methods, and long-term value so the project protects your home instead of creating future repairs.****

Section 11: Final CTA

Section Purpose

Convert the visitor after trust has been built.

Emotional Goal

Make the next step feel easy, safe, and low-pressure.

Headline Options

Option 1:

****Ready To Build It Properly?****

Option 2:

****Tell Us What You Are Planning. We'll Help You Find The Right Next Step.****

Option 3:

****Start With A Clear Conversation.****

CTA Copy Template

****Tell us about the project, where it is, and what you are hoping to accomplish. We will review the details and help you understand the scope, rough range, and best next step. No pressure — just clear guidance from a local team.****

Primary CTA:

****Request A Clear Estimate****

Secondary CTA:

****Call Us****

Section 12: Footer Copy

Footer Brand Description Template

****[Brand Name] is part of the Cochrane Master Builders network, a family-owned construction ecosystem serving Cochrane and surrounding communities with clear guidance, practical workmanship, and long-term value.****

Footer Slogan

****Strong Foundations For Those Who Come After Us.****

Footer Contact CTA

****Have a project in mind? Send us the details and we will help you understand the next step.****

Email:

****Inquiry@CochraneMasterBuilders.ca****

Page 2: Services Page Copywriting Template

Page Purpose

The Services page should show all major service categories for that domain in a clean, scannable way.

It should not be vague.

It should act like a decision map.

Page Hero Headline Options

Option 1:

****[Service] Services For Cochrane Homes, Families, And Properties.****

Option 2:

****Everything We Offer For [Service Category] Projects.****

Option 3:

****Clear Options For Building, Repairing, And Improving Your [Project Type].****

Page Hero Subheadline Template

****Explore the [service] services we offer, what each one is best for, and the rough pricing guidance that helps you plan with confidence before reaching out.****

Services Intro Section

Copy Template

****Every [service] project starts with a different problem. Some homeowners need repairs. Some need a full replacement. Some are planning a larger upgrade and want to understand the options before committing. This page helps you see what we offer, how each service works, and what kind of project might be the right fit.****

Service Category Cards

Card Template

****[Sub-Service Name]****

****Best for:** [Customer situation]**

****What it does:** [Plain explanation]**

****Typical range:** [Price range]**

****Next step:** Learn more or request an estimate.**

Related Services Copy

Headline

****Related Services That Often Go With [Service].****

Intro

****Some projects are simple. Others connect to surrounding systems, finishes, or structural details. These related services are often considered at the same time because they can affect cost, timeline, and long-term performance.****

Page 3: Pricing / Cost Guide Copywriting Template

Page Purpose

The Pricing page should be one of the strongest trust pages on the site.

It should help customers self-qualify, understand the rough range, and feel more confident reaching out.

Hero Headline Formula

****How Much Does [Service] Cost In Cochrane?****

Hero Subheadline Template

****Use this guide to understand rough [service] pricing, what changes the final cost, and how to plan a project that protects your home, budget, and long-term value.****

Pricing Intro Copy

****We believe homeowners should not have to start a conversation completely in the dark. Final pricing always depends on the real scope, materials, site conditions, and schedule, but clear ranges help you plan better and avoid surprises.****

Pricing Table Intro

****The ranges below are planning estimates. They are meant to help you understand what type of budget may be realistic before requesting a project-specific quote.****

Pricing Level Copy

Small / Simple Projects

****Best for focused repairs, small upgrades, simple replacements, or early-stage improvements where the scope is limited and the site conditions are straightforward.****

Standard Projects

****Best for most homeowners who want professional work, durable materials, and a finished result that improves daily life and long-term value.****

Premium / Complex Projects

****Best for custom finishes, structural complexity, larger homes, challenging access, premium materials, or projects where the details matter significantly.****

Premium Positioning Copy

****We do not position ourselves as the cheapest option. Cheap work often removes the details that protect the home long-term: preparation, waterproofing, flashing, structure, cleanup, communication, and proper sequencing. We price for work that is planned, built, and finished properly.****

Quote CTA Copy

****If you want a more accurate range, send the project details, location, photos, and timeline. We will help you understand what is realistic and what the next step should be.****

CTA:

****Request A Clear Estimate****

Page 4: Process Page Copywriting Template

Page Purpose

The Process page should make the company feel organized, safe, and trustworthy.

This is especially important for customers who have had bad contractor experiences.

Hero Headline Options

Option 1:

****A Clear Process For Better Construction Decisions.****

Option 2:

****From First Message To Final Walkthrough, You'll Know What Happens Next.****

Option 3:

****No Guesswork. No Pressure. Just A Clear Path Forward.****

Hero Subheadline Template

****Our process is built to reduce confusion, explain the options, protect your home, and help you make confident decisions before work begins.****

Process Philosophy Copy

****Good construction is not only about tools and materials. It is about sequencing, communication, preparation, and accountability. A clear process protects the homeowner from confusion and protects the project from costly mistakes.****

Step Detail Copy

Use the universal process, but expand each step on the dedicated Process page.

Step 1: Project Intake

****We start by understanding what you need, where the project is, what problem you are trying to solve, and what timeline you have in mind. Photos, measurements, and inspiration images are helpful at this stage.****

Step 2: Scope Review

****We look for the details that can affect cost, timeline, materials, access, and permits. The goal is to avoid vague assumptions early.****

Step 3: Estimate And Options

****You receive a clear explanation of what is included, what may change, and what options are available. If there are multiple ways to approach the work, we explain the tradeoffs.****

Step 4: Schedule And Prepare

****Before work begins, we confirm access, preparation, materials, timing, protection needs, and communication expectations.****

Step 5: Complete The Work

****The work is completed with attention to the details that affect long-term performance, not only surface appearance.****

Step 6: Review And Closeout

****We walk through the result, answer questions, and discuss maintenance or next steps where needed.****

Step 7: Long-Term Relationship

****The best outcome is not just a completed job. It is a homeowner who knows who to call next time.****

Page 5: Areas We Serve Copywriting Template

Page Purpose

This page should support local SEO and local trust.

It should not just be a list of communities.

It should explain why local context matters.

Hero Headline Options

Option 1:

****Serving Cochrane And The Communities Around It.****

Option 2:

****Local [Service] For Cochrane, Acreage Communities, Calgary West, And The Bow Valley Corridor.****

Option 3:

****Built For The Homes, Weather, And Property Types Around Cochrane.****

Hero Subheadline Template

****We provide [service] for homeowners, families, acreages, and local businesses across Cochrane and nearby communities, with workmanship built around local conditions and long-term value.****

Local Context Copy

****Working around Cochrane is different from working in a generic market. Properties vary from townhomes and family houses to estate homes, acreage properties, mountain corridor homes, and older homes that need careful upgrades. Weather, access, drainage, materials, and property style all matter.****

Area Cluster Copy Templates

Cochrane Core

****For families living in Cochrane neighbourhoods who want local service, clear communication, and work that supports daily life at home.****

Acreage And Estate Communities

****For acreage and estate properties where access, scale, finishes, privacy, and long-term property value need to be considered carefully.****

Calgary West Communities

****For established and premium west-side communities where homeowners often care about durability, resale value, design restraint, and clean execution.****

Bow Valley Corridor

****For properties closer to the mountains where weather, seasons, materials, and maintenance planning become especially important.****

Area Landing Page Copy Formula

Hero:

****[Service] In [Community]****

Subheadline:

****Family-owned [service] for [Community] homes and properties, with clear pricing guidance, local planning, and workmanship built for long-term value.****

Local intro:

****Homes in [Community] often have [property traits]. That means [service] projects need to account for [specific concerns]. We help homeowners plan the work properly so the result fits the property, protects value, and serves the family long-term.****

CTA:

****Request A [Community] Estimate****

Page 6: About Page Copywriting Template

Page Purpose

The About page should deepen trust.

It should explain the family-owned origin, long-term thinking, and why Cochrane Master Builders exists.

Hero Headline Options

Option 1:

****A Family-Owned Builders' Network For Cochrane Homes And The People Who Come After Us.****

Option 2:

****Built On Family, Neighbour Trust, And Long-Term Workmanship.****

Option 3:

****We Build Like Our Own Family Will Inherit The Work.****

Hero Subheadline Template

****Cochrane Master Builders was created to bring specialized construction services under one trusted local standard: clear communication, honest guidance, and work built for the future of the families who live here.****

Origin Story Template

****Cochrane Master Builders began with a simple frustration: homeowners should not have to feel uncertain, pressured, or confused when hiring someone to work on their home. Too often, construction feels transactional. We wanted to build something different — a family-owned builders' network where every service is connected by one long-term standard.****

****The idea is simple. If we would not be proud for our own children or grandchildren to inherit the work, it does not meet the standard.****

Mission Copy

****Our mission is to strengthen Cochrane families, homes, and neighbourhoods by delivering honest, durable construction work that is built for the people living here today and the generations who will come after them.****

Values Copy

Strong Foundations

****We think beyond the finished photo. We care about how the work performs years from now.****

Family First

****Every home project affects the people living inside it. We plan and communicate with that reality in mind.****

Neighbours Matter

****Cochrane is not just a service area. It is home. Our name matters here.****

Do It Right

****Shortcuts today become problems tomorrow. We prefer proper work, clear scope, and durable results.****

Clear Is Kind

****Customers should understand the process, the rough range, and the next step before making a decision.****

Page 7: Contact Page Copywriting Template

Page Purpose

The Contact page should make reaching out feel simple, safe, and low-pressure.

Hero Headline Options

Option 1:

****Tell Us What You Are Planning.****

Option 2:

****Start With A Clear Conversation.****

Option 3:

****Request A Clear Estimate For Your Project.****

Hero Subheadline Template

****Share a few details about the project, location, timeline, and budget range. We will review the information and help you understand the best next step.****

Contact Form Intro Copy

****You do not need to have everything figured out. Send what you know, include photos if you have them, and we will help you clarify the scope. The more detail you provide, the more useful our first response can be.****

Form Microcopy

Name field helper:

****Who should we contact about the project?****

Phone helper:

****Best number if we need to clarify details quickly.****

Service helper:

****Choose the closest service. If you are unsure, select "Not sure yet."****

Project description helper:

****Tell us what you are hoping to build, repair, replace, or improve.****

Budget helper:

****A rough range helps us recommend the right next step. It does not lock you in.****

Photo upload helper:

****Photos help us understand access, condition, and scope before a site visit.****

Submit button:

****Send Project Details****

Confirmation Message

****Thanks — we received your project details. Our team will review the scope and follow up with the best next step. If you have more photos, plans, or measurements, keep them handy. They can help us give better guidance.****

Urgent note:

****If this is urgent, call us directly after submitting the form.****

Page 8: FAQ Page Copywriting Template

Page Purpose

The FAQ page should answer buying questions before they become objections.

Hero Headline Options

Option 1:

****Clear Answers Before You Start.****

Option 2:

****Questions Cochrane Homeowners Ask Before Hiring A Contractor.****

Option 3:

****Know What To Expect Before You Commit.****

Hero Subheadline Template

****Construction decisions are easier when the process, pricing, timelines, and responsibilities are clear. These answers are here to help you plan with more confidence.****

FAQ Category Copy

Cost Questions

****Pricing depends on scope, materials, labour, access, and existing conditions. These answers help you understand what can move a project up or down.****

Timeline Questions

****Schedules depend on project size, material availability, weather, permits, and trade coordination. We explain timelines clearly before work begins.****

Permit Questions

****Some projects can be simple. Others involve code, inspections, or licensed trades. We help identify those requirements early.****

Service Area Questions

****We serve Cochrane and many surrounding communities. If you are not sure whether your property is in range, ask us.****

Page 9: Projects / Gallery Page Copywriting Template

Page Purpose

The Projects page should turn proof into story.

It should not just be a photo dump.

Hero Headline Options

Option 1:

****Real Work. Real Homes. Real Long-Term Value.****

Option 2:

****Recent Projects Across Cochrane And Surrounding Communities.****

Option 3:

****See How Careful Work Changes A Property.****

Hero Subheadline Template

****Every project has a problem, a scope, and a finished result. Browse examples of how we help homeowners improve safety, comfort, value, and long-term function.****

Case Study Copy Template

Project Title

****[Service] Project In [Community]****

Challenge

****The homeowner needed [problem] because [reason].****

Approach

****We recommended [solution] to address [specific issue] while protecting [budget/timeline/home value].****

Result

****The finished project gave the family [outcome], improved [specific benefit], and created a stronger long-term foundation for the home.****

Details

- Location: [Community]
- Service: [Service]
- Timeline: [Timeline]
- Scope: [Scope]
- Result: [Outcome]

Page 10: Blog / Resource Page Copywriting Template

Page Purpose

The blog/resources section should educate, build trust, and capture long-tail SEO.

It should not be thin AI fluff.

Resource Page Headline

****Helpful Guides For Planning Your Next [Service] Project.****

Resource Intro Template

****The best construction decisions are made before the work starts. These guides help Cochrane homeowners understand costs, timelines, materials, permits, maintenance, and what to watch for before hiring a contractor.****

Blog Article Template

Article Hero

Title:

****[Topic] In Cochrane: What Homeowners Should Know Before Starting****

Intro:

****If you are planning [project], the biggest mistakes usually happen before work begins: unclear scope, unrealistic budgets, missed permits, poor materials, or hiring only on price. This guide explains what matters so you can plan with more confidence.****

Article Sections

1. What the project involves
2. When it is worth doing
3. Common mistakes
4. Rough pricing ranges

5. What affects cost
6. Permit or code considerations
7. How to choose materials
8. Questions to ask a contractor
9. When to request an estimate
10. CTA

Article CTA

****Planning a [project] in Cochrane? Send us the details and we will help you understand the scope, rough range, and next step.****

Service-Specific Copy Adaptation Rules

Roofing Copy Angle

Primary emotion:

Protection.

Core customer fear:

Leaks, storm damage, expensive hidden issues, insurance stress.

Copy should emphasize:

- Weather protection
- Hail, snow, ice, wind
- Roof condition clarity
- Long-term home protection
- Prevention before bigger damage

Hero example:

****Roofing Built To Protect The Family Under It.****

Subheadline:

****Get clear roofing guidance, durable materials, and a local team that understands how Alberta weather tests every roof.****

Flooring Copy Angle

Primary emotion:

Daily comfort.

Core customer fear:

Poor installation, uneven floors, cheap materials wearing out.

Copy should emphasize:

- Daily family life
- Durability
- Clean finishes
- Long-term wear
- Comfort and resale value

Hero example:

****Floors Built For The Life That Happens On Them.****

Bathroom Renovation Copy Angle

Primary emotion:

Comfort and dignity.

Core customer fear:

Water damage, bad tile, poor waterproofing, disruption.

Copy should emphasize:

- Waterproofing
- Daily comfort
- Better storage
- Safety
- Long-term value

Hero example:

****Bathroom Renovations Built For Calm Mornings And Long-Term Value.****

Basement Suite Copy Angle

Primary emotion:

Security and flexibility.

Core customer fear:

Illegal suite issues, permit problems, bad layout, poor comfort.

Copy should emphasize:

- Income potential
- Family flexibility
- Legal planning
- Egress and safety
- Sound separation

Hero example:

****Basement Suites Built For Family Flexibility And Long-Term Security.****

Concrete Copy Angle

Primary emotion:

Strength.

Core customer fear:

Cracking, drainage issues, bad prep, frost damage.

Copy should emphasize:

- Site preparation

- Alberta weather
- Drainage
- Strength under everyday use
- Proper base and reinforcement

Hero example:

****Concrete Work Built To Carry The Weight Of Everyday Life.****

Landscaping Copy Angle

Primary emotion:

Outdoor life.

Core customer fear:

Wasted money on a yard that fails, poor drainage, high maintenance.

Copy should emphasize:

- Family gathering
- Curb appeal
- Seasonal planning
- Low-maintenance beauty
- Outdoor usability

Hero example:

****Outdoor Spaces Built For Family, Seasons, And Years Of Use.****

Commercial Copy Angle

Primary emotion:

Business confidence.

Core customer fear:

Downtime, delays, code issues, blown budgets.

Copy should emphasize:

- Schedule control
- Phasing
- Business continuity
- Code coordination
- Practical execution

Hero example:

****Commercial Construction That Helps Your Business Keep Moving.****

Handyman Copy Angle

Primary emotion:

Relief.

Core customer fear:

Small jobs piling up, unreliable help, overpaying for simple tasks.

Copy should emphasize:

- Fast help
- Clear minimums
- Trustworthy local service
- Small repairs before bigger problems

Hero example:

****Small Repairs Handled Before They Become Bigger Problems.****

Microcopy System

Buttons

Use action-oriented, clear CTAs.

Best primary buttons:

- Request A Clear Estimate
- Start Your Project
- Send Project Details
- Get Pricing Guidance
- Talk To A Local Builder

Best secondary buttons:

- View Services & Pricing
- See Our Process
- Explore Areas We Serve
- View Recent Projects
- Read The Cost Guide

Avoid:

- Submit
- Click Here
- Learn More everywhere
- Get Started without context

Form Helper Copy

Budget:

****A rough budget helps us recommend the right path. It does not need to be exact.****

Timeline:

****Tell us whether this is urgent, seasonal, or part of a longer-term plan.****

Photos:

****Photos help us understand condition, access, and scope before a site visit.****

Address:

****A general location helps us confirm service area and access needs.****

Error Messages

Name missing:

****Please enter your name so we know who to follow up with.****

Email missing:

****Please enter an email address so we can send project details or next steps.****

Phone missing:

****Please enter a phone number in case we need to clarify the scope quickly.****

Project description missing:

****Please describe the project in a few words so we can route it properly.****

Success Messages

Short version:

****Thanks — your project details were sent. We will review the scope and follow up with the best next step.****

Long version:

****Thanks for reaching out. We received your project details and will review the scope, location, timeline, and notes. If you have photos, plans, or measurements, keep them ready — they can help us give better guidance.****

SEO Copywriting Template Rules

Homepage Title Tag

****[Service] In Cochrane | Family-Owned [Service] Contractors****

Example:

****Roofing In Cochrane | Family-Owned Roofing Contractors****

Homepage Meta Description

****Family-owned [service] in Cochrane with clear pricing guidance, careful workmanship, and long-term value. Request an estimate from [Brand Name].****

Service Page Title Tag

****[Sub-Service] In Cochrane | [Brand Name]****

Area Page Title Tag

****[Service] In [Community] | Cochrane Master Builders****

FAQ Schema Style

FAQ answers should be short, useful, and specific.

Do not stuff keywords.

Do not claim exact pricing if pricing depends on scope.

Copy-Length Guidelines

Homepage

Hero headline: 6–12 words.

Hero subheadline: 24–42 words.

Trust cards: 8–18 words each.

Service card descriptions: 12–22 words each.

Pricing intro: 35–70 words.

Process steps: 15–30 words each.

Legacy block: 100–180 words.

FAQ answers: 40–90 words.

Final CTA: 35–70 words.

Service Detail Page

Hero headline: 6–14 words.

Hero subheadline: 30–55 words.

Problem section: 80–140 words.

Service explanation: 150–300 words.

Pricing section: 150–300 words.

FAQ answers: 40–90 words.

Final Copywriting North Star

Every site should make the customer feel three things:

1. ****They understand my project.****
2. ****They will explain the process and price clearly.****
3. ****They will build it like it matters beyond today.****

That is the copywriting standard.

Not cleverness.

Not hype.

Not generic contractor language.

Clear, human, specific, local, family-owned, and long-term.

The final impression should be:

****This is the kind of company I would trust with my home, my family, and the future value of my property.****

Final Template Line

****Cochrane Master Builders exists to build the physical foundations of family life: homes, spaces, repairs, and improvements strong enough to serve the people who come after us.****

****Strong Foundations For Those Who Come After Us.****
